Ivan Sazontov

has successfully completed the online Specialization

Meta React

This certificate is a culmination of your dedication to mastering both fundamental and advanced React concepts, preparing you for opportunities in front-end development. Please feel free to share it with your professional network. Throughout this program, you've watched instructional videos, completed assessments, and worked through practical exercises, learning essential React skills such as building reusable components, managing data flow, and implementing advanced React patterns. Your new skills enable you to build sophisticated user interfaces for web applications using modern development practices, positioning you well for success in today's technology landscape.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
